Summary: The story of Mia's mother and how she developed her powers as an Mercury Adept.

***Chapter 1*: Mercury Rising**

MERCURY RISING by Slayer Sliver

Chapter One- "A natural born healer"

Fortress of Mercury Adept Saki -Imil

17 years before the Golden Sun legend

In the town that is known as Imil, a fortress stands valiantly alongside the Mercury lighthouse. A beautiful Mercury Adept known as Saki gives birth to infant girl named Mia. The newborn's weeping fills the halls of the pristine fortress of Lady Saki , a Mercury Adept. Wizards, Magicians, and Townspeople gather around her bedside to observe the young infant. The infant finally opened her eyes to reveal a beautiful ocean blue. She nestled against her mother basking in the warmth of her breast.

White Mage-"I can feel sadness and rage coming from Sol Sanctum's power. The prophecies of a crisis coming....Saki possesses great healing strength."

White Mage 2- "If we are to rise up against Saki...omens foreshadowing death will come upon us. Such strength....Such courage is completely different from the image of her father, Xanthus. The Mars, Mercury, and Jupiter Adepts respect her leadership. To rebel would be suicide. The child of Saki is more powerful than I could have imaged. I underestimated Saki's great power as an Adept."

White Mage- "Many secrets are hidden deeply within Sol Sanctum. I am deeply concern about Lady Saki's safely. She is severely weaken by the birth of her child. Lady Saki's

power is not at full strength and with the recent death of her husband, she utterly cannot fight."

Mage's Room

White Mage 2- "We must report this to Lady Saki immediately!"

White Mage- "I am afraid we cannot, it will be too much for her to handle."

White Mage 2- "And what about the child? Will she be danger too?"

White Mage- "No...Only Saki's well-being is at stake"

White Mage 2- "If Lady Saki were to perish who will take care of the child?"

White Mage- "The Clan of Mercury Adepts...I suppose?"

White Mage- "There *are* only a few Mercury Adepts left in Imil."
